2023 - 2024

HASTINGS  
SCHOOL

Our Extra-curricular activities programme offers a wide variety of options for our pupils to continue learning after school.

Activities are carefully planned to encourage self-improvement, team spirit, fair play, creativity and imagination.

Extra-curricular activities allow pupils to come into contact with children from other classes, to make new friends and to develop new relationships and strengthen the ones they already have in a different and fun context.

### MODERN DANCE: JAZZ & COMMERCIAL

This activity is done together with Rosa Llauro from DanceesCool. A dance school with more than 10 years of experience and more than 1500 students.

Jazz is a discipline that takes steps and figures from ballet, disco, breakdance, funky, hip-hop, blues, rap, twist, swing, rock&roll. On the other hand, the Commercial style is the result of the introduction and adaptation of urban culture in the pop music industry.

At the end of the course, a Festival will be organised: a unique opportunity to participate in a large-scale show for family and friends. It takes place in one of the city's theatres that host great musicals; providing them with large stage sets, lighting, professional sound and a specific theme as a common thread.

## EXTRA-CURRICULAR ACTIVITIES 2023-2024

### DRAMA

Drama is one of the extracurricular activities aimed at introducing children to the world of acting. In drama classes pupils will have fun acting and making up stories with their classmates. Theatre has many benefits for children: it develops corporal and verbal expression, stimulates their mental agility and memory, increases their self-esteem, they learn to respect and work in a group, know and control their emotions and it helps them to develop and express themselves in public.

### CHESS

Chess is a mental sport that favours concentration, reasoning, memory, problem solving and coordination. This mental game helps children to take initiative, develop logical-mathematical thinking, adapt to multiple and unexpected situations and make quicker and more accurate decisions under pressure. In these classes the student will be taught the main moves and rules of the game, and will learn to solve different strategic chess games.

### ART CLUB

The craft activity is part of the integral evolutionary process of people. For this reason, in this extracurricular activity we want the students to enjoy different activities of manual manipulation with different types of materials, creative games and plastic workshops. The aim of the activity is for pupils to experience different artistic styles throughout the year.

## EXTRA-CURRICULAR ACTIVITIES 2023-2024

### ROBOTICS

For all those who like to play with Legos, discover how to go further in the use of new technologies, in this workshop you will be able to build an impressive robot to bring to life and make it produce sound and movements.

Our project is based on the union of two educational blocks that are currently working in the training of students all over the world. On the one hand, products developed by LEGO Education (WeDo, WeDo 2.0 Bluetooth and Mindstorms EV3) for the construction of robots, and on the other two softwares that have earned a niche in programming worldwide, for the development of small 2D and 3D video games: KODU and SCRATCH.

For this club, each student will have a WeDo kit at their disposal, with which they will be able to make some amazing robots. Robotics in Action will be teaching this activity.

### CODING CLUB

Activity in English language

A fun way to enter the world of coding and assimilate computational thinking through video game coding. We use the programming environment interpreted by blocks of Minecraft Education to generate geometric elements, constructions and all kinds of effects, using loops, conditionals, variables and other components.

Progressively, we are expanding programming structures with Makecode Arcade, a video game development tool that is based on programming blocks and pixel art aesthetics, to generate new creations inspired by retro classics and develop critical, computational and spatial thinking.

### 3D & VIRTUAL REALITY CLUB

Activity in English language

In this 100% visual extracurricular 3D spatial perception is developed and essential concepts are acquired to learn to create scenarios in three dimensions and interactive worlds.

From prototypes generated with TinkerCAD and Minecraft Education, students incorporate new construction techniques taking into account factors such as stability, robustness and even the effects of gravity.

Progressively, we are incorporating these learnings into environments such as Cospaces Edu, in which coding environments are used to generate animations, buildings and complex constructions, presenting it in Virtual / Augmented Reality format.

## FRENCH CLUB

With more than 200 million speakers, French not only opens doors to the world of work, but it also opens doors to culture. It is the international language of cuisine, dance, art and theatre. It is also one of the languages that requires the fewest hours of learning, as it shares knowledge with Spanish in being a Latin language, but also with English, being the basis of 50% of current Anglo-Saxon vocabulary.

## GERMAN CLUB

In primary school pupils learn simple vocabulary and phrases in the early years and later we introduce more complex language but most importantly, they learn to feel comfortable listening to their teacher and following instructions in a spontaneous way. They learn songs and games in German.

In secondary school, pupils have the opportunity to communicate with their classmates and teachers in German in small groups. Our job is to activate the language through communicative games and activities based on stimulating themes.

## MUSIC AND MOVEMENT

Music and Movement is the ideal extracurricular activity for children to begin to develop the gross motor skills of the body using music.

With this extracurricular activity we want to bring music closer to children and make them grow through it. The pupils will have a great time learning songs, singing and dancing to the rhythm of the music. They will use their bodies as a form of expression, and they will learn to know and distinguish basic musical instruments.

## FAQ

**What is the deadline for registering for an extracurricular activity?** As places are limited, we suggest that you register as soon as possible using the online form on our website or from the communications you receive through Cognita Connect.

**Is it possible to register my child for one month instead of a full term?** For organisational reasons, after-school activities are offered on a termly basis. If you wish to register your child after the term has started, we will charge for the rest of the term.

**Why does a long term (15 weeks) cost the same as a short term (9 weeks)?** The price is based on an annual calculation which is invoiced in three equal quarterly instalments.

**How is payment handled?** The invoice for extracurricular activities will be issued quarterly (October, January and April), at the beginning of each term, according to the conditions agreed with the school. Taking into account that we have not included the month of September in the price because that is when the students start the activities.

**What is the price per term for extra-curricular activities?**

The price is 155€ termly.

Tiny Architects activity 55€/month

Lamda 30€/session

Lamda Public Speaking 55€/month

Coding Club 60€/month

3D & Virtual Reality Club 60€/month

Didact Music (Instrument 80€/month, Instrument + Musical Language 100€/month, Musical Grouping 65€/month)

**What is the price for sports with two sessions a week "e.g. Basketball"?** The price per term will be 300€. This includes two sessions per week of one hour each day, plus the game on Saturdays. Students on the competitive teams will have to purchase the corresponding equipment.

**Is there a cancellation policy?** For organisational reasons, refunds are not possible except for justified medical reasons. However, if your child wishes to change activities within the same term, this will be possible, provided there is a place available.

**Are all extracurricular activities in English?** All extracurricular activities are taught in English. As we offer activities that are taught by other organisations, on some occasions, in situations of teacher substitution due to medical or personal reasons, it is possible that the teachers may not have a high level of English.

## CONDITIONS

- The school guarantees the quality of all activities provided by external collaborators.
- For organisational reasons, extra-curricular activities are offered on a termly basis.
- The price is based on an annual calculation which is invoiced in three equal quarterly instalments.
- The invoice for extracurricular activities will be issued quarterly, at the beginning of each term, in accordance with the conditions agreed with the school.
- It is not possible to offer discounts for siblings for extracurricular activities.
- For organisational reasons, refunds are not possible. However, if your child wishes to change activity within the same term, this will be possible, provided there is a place available.
- To go ahead with an activity, there must be a minimum of 8/10 students enrolled.

**Do all extracurricular activities take place inside the buildings?** Most of the activities in our programme take place inside the corresponding building, but some sports activities take place in the sports facilities we have, Bendición de Campos and Azulinas use Colegio Mayor and Lorenzo Solano Tendero and Manuel Marañón 8 uses the sports courts.

**Do students have to bring any specific equipment or material?** For sports activities, pupils should bring the school's Physical Education equipment. For the rest of the activities, the school will provide students with the necessary equipment.

**Do we federate students (karate)?** For those clubs in which we can federate students, families will have the option, paying the corresponding fee.

**What is the daily procedure?** At the end of the school day, the class teacher will accompany the pupils to the classroom/space where the monitors/teachers of the extracurricular activities will take them to their activity.

**What are the opening hours for after-school activities?** As a general rule, after-school activities take place between 16:15 and 17:15 (Paseo de la Habana, Bendición de Campos, Azulinas and Sobradíel) and between 16:30 and 17:30 (Lorenzo Solano Tendero and Manuel Marañón 8). Check the timetable for each activity in the table.

**Where will we pick up our children at the end of the activities?** Parents/guardians must pick up their children at 17.15 at the latest (Paseo de la Habana, Bendición de Campos, Azulinas and Sobradíel) and at 17:30 (Lorenzo Solano Tendero and Manuel Marañón 8) at the entrance of the corresponding building.

**What is the latest time to pick up my child?** The school closes from Monday to Friday at 17.30. The time to collect the students for early years and primary will be at 17:15 and for secondary at 17:30

**Will there be activities in secondary school at midday?** Yes, these activities will be free of charge for those students who have contracted the canteen service and as they depend on the timetables of our teachers, we will send more information in September.
